

# Pirates Reboot

Let's do it ourselves

# What I read

Being more transparent

Be a bottom up organisation

Stop the bureaucracy

We must welcome newcomers

We need to be a community

We need intercrew meetings

# The reboot proposition

Solve the different problems with regular pirate labs

# How can it be the solution

- regular intercrew meetings
- organised by the previous pirate lab
- organises the GA
- decides the objectives
- decides the planning
- get some work done

# Possible problem

The statutes !

Well, I don't give a shit about statutes !!!

# Conclusion

- Let's be a community
- Let people work on what they want
- Give the people a good environment
- Statutes should be what we are
